# I. INTRODUCTION

The Taxpayers of Reeves County have an enormous investment in our County's buildings, land, equipment, and furnishings. Not only is it a good accounting policy to maintain accurate inventory records of the Fixed Assets of the County, but State Law also mandates that these records be kept.

This is a written documentation of the Reeves County Fixed Asset Policies and Procedures. It includes the policy of acquisition, control, regulation, accounting and disposal of the County's Fixed Assets. Exceptions to these policies and procedures must be approved by the Commissioners' Court.

In Reeves County, the Purchasing Department serves as the "Asset (Property) Manager" for the County. The Purchasing Agent has control over the transfer of assets from one department to another, with the approval of the Commissioners' Court. (Texas Local Govt. Code, Section 262.011 (j).)

The Governmental Accounting Standards Board (GASB) prescribes the accounting procedures for all governmental agencies. The County is responsible, under the guidance of the County Auditor, to administer those accounting procedures.

This document will cover each phase of our Fixed Assets Inventory system. It is important that every County official, department head, and employee have a basic understanding of the policies and procedures associated with the County Fixed Assets; Each official, department head, and employee shares in the responsibility of accounting for, using, and maintaining the County's assets.

State law is very specific concerning the use of the public assets for personal use or gain. There are very stiff penalties imposed on anyone using County-owned assets for personal use. The purpose of this document is to make everyone aware of these laws and to help prevent mis-use of County-owned assets.

While no set of policies or procedures can address all circumstances, this document is prepared to answer most of the questions about County Fixed Assets. It is not the purpose of this document to cause hardship to any person, but to provide for a better understanding of the importance of asset responsibilities and controls. By establishing these standards for asset control, the job of controlling and managing County assets will be made easier for all concerned. Any issue not specifically addressed in this document should be directed to the Purchasing Agent or the County Auditor prior to any action being taken by the department.

## II. DEFINITIONS FOR FIXED ASSETS
